SECTION 5. FIRE-FIGHTING MEASURES

5.1 Extinguishing media:

All extinguishing media can be used.

5.2 Special hazards arising from the substance or mixture:

Under normal circumstances the product is stable.

On exposure to high temperature, may decompose releasing toxic gases. Oxidising-reacts with combustible materials and increases combustion even in the presence of air. Poisonous nitrous gases may form in case of fire.

5.3 Advice for firefighters:

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Use water spray to cool unopened containers, Prevent run-off from fire control or dilution from entering streams, sewers or drinking water supply.

SECTION 6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures:

Provide adequate ventilation to minimise dust and/or vapour concentrations. Wear suitable protective equipment, including gloves, goggles/face shield, respirator, boots, clothing or apron, as appropriate. Equip clean-up crew with proper protection.

6.2 Environmental precautions:

Avoid pollution of sewers and watercourses. Notify local authorities if product enters sewers or public waters.

6.3 Methods and material for containment and cleaning up:

Contain and sweep up spillages. Place unusable material in clearly labelled containers or plastic bags for disposal. Wet residues are slippery, wash floors to remove all traces.

SECTION 7. HANDLING AND STORAGE

7.1 Precautions for safe handling:

Avoid spilling. Avoid contact with skin and eyes. Use mechanical ventilation if there is a risk of handling causing formation of airborne dust. Avoid inhalation of dust. Wash hands thoroughly after handling. Wear suitable

protective equipment for prolonged exposure and/or high concentrations of vapours, spray or mist. Always obey safety warnings and handle empty packaging material as if they were full. Keep away from sources of ignition. Keep away from heat and direct sunlight.

When using do not eat, drink or smoke. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking, and when leaving work. Remove contaminated clothing and shoes.

7.2 Conditions for safe storage, including any incompatibilities:

Keep dry. Packs should be stored closed to avoid moisture ingress. Avoid prolonged contact with metals. Do not use food containers for storage due to risk of mistake. Keep away from combustible materials, naked flames and heat. Keep away from sources of ignition.

Conditions of collocated storage:

Storage class 10 - 13 (Other liquids and solids)

Only substances of the same storage class should be stored together.

Collocated storage with the following substances is prohibited:

- Pharmaceuticals, foods, and animal feeds including additives.
- Infectious, radioactive and explosive substances.
- Strongly oxidizing substances of storage class 5.1A.

7.3 Specific end uses: For use only as a horticultural fertiliser.
